# STURDY SEEDLING STOCK

**Y**OUR reputation for serving your patrons with seedlings that live and grow to vigorous maturity is safe in our hands.

You may place your orders with us, knowing that they will be executed with complete satisfaction to you and you may have the utmost confidence in the exceptionally fine quality of the stock we will furnish you. On its face, the reason is very simple, but behind it there is eternal vigilance and a constant conscientious endeavor to produce seedling stock of only the finest quality.

We confine our seedling nursery to two acres purposely so that we can intensively cultivate every inch and give each plant individual attention. The result is that Piedmont Forestry Company seedling stock is the sturdiest it is possible to raise.

We stand back of every plant shipped from our nursery. That means that we stand back of you in service to your patrons. A trial order will prove all our claims.
